YOUR WATER GUARDIAN FOR LIFE™

DON'T WAIT

Demand for our life-giving water filtration systems continues to grow globally, and for good reason, we're very different and we are the healthy water benchmark. Unlike others, we over-deliver on our product & marketing claims. And we always serve our faithful customers first and foremost before accepting new customer orders...always!

But, when, not if, disasters like Flint, MI, or numerous other water contamination disasters strike, just like they always have...our demand will AGAIN exceed supply and our systems may be unavailable to finally reach and protect your family when you need them most.

Don't wait! Protect your family and make us your Water Guardian™ For Life by buying NOW and avoid delays in protection when you find your family's need is the most critical to you.

QUESTIONABLE WATER?

NOV8iON water

YOUR WATER GUARDIAN™ FOR LIFE

WE ARE YOUR UNQUESTIONABLE ANSWER

Made in USA

WG-350

UNDER COUNTER SYSTEM

QUESTIONABLE WATER?

Do you question the water quality entering your home? It's very smart to do so. Here are a just a few reasons why over 90% of US homes have unhealthy water which put your family's health and very life at undesirable and needless risk.

Most are unaware that the US ranks a lowly 64th in the world in terms of water quality while also ranking 5th in terms of highest cancer rates per capita. Are these 2 horrific statistics related? A flood of peer-reviewed science and epidemiological studies resoundingly say YES! So, why add "bleach" to it? One answer is because the US EPA mandates this to make it LEGAL...

But even the EPA's own LEGAL water quality standards are very deficient in protecting you. Many don't come close to reflecting real peer-reviewed human health standards. The EPA doesn't even monitor many well-known health and life threatening water contaminants, now widespread in US municipal water.

LEGAL ≠ SAFE

Even worse, the inside walls of buried piping infrastructure which deliver municipal water to your home are perfect breeding grounds for long term contamination to build up for decades whether chlorine is added or not. They're incredulously filthy. (See nov8ion.com to see photos)

Only YOU can prevent these health and life-limiting contaminants from negatively impacting you and your family's health and life.

Fortunately, NOV8iON Water was breathed into existence to eliminate these and many more problems for ALL families globally. Read more to learn how you can make NOV8iON Water your Water Guardian™ for life.

OUR UNQUESTIONABLE SOLUTION!

Our patented water filtration technology was previously only available to corporate giants like Pepsi, Coke, & McDonalds. NOV8iON Water now makes this exact same technology available to you and your family at amazingly affordable prices.

It not only makes your water taste and smell like real water again, it filters practically all contaminants, carcinogens & bacteria, heavy metals including lead, pesticides, herbicides and even 99.999% of the smelly chlorine from your water effortlessly. This leaves your family with safe, healthy, clean and ultrapure drinking water you can't even buy in a bottle.

Our systems are designed to last for your family's entire life and will help extend it. They'll even put money back in your pocket, paying for themselves in as little as 4 months. They require no maintenance, no electricity nor weekly/monthly chemical additives, and can easily be installed by any DIY person in less than 20 minutes with our Pro-Install kit, (included).

No other brand can honestly offer this unrivaled performance and maintenance-free benefits at unheard of prices except NOV8iON Water! We're the most revolutionary and innovative leader on the market and our technology is finally available to your family's home today, at amazingly affordable prices.
